Powerful Pictures

Premise

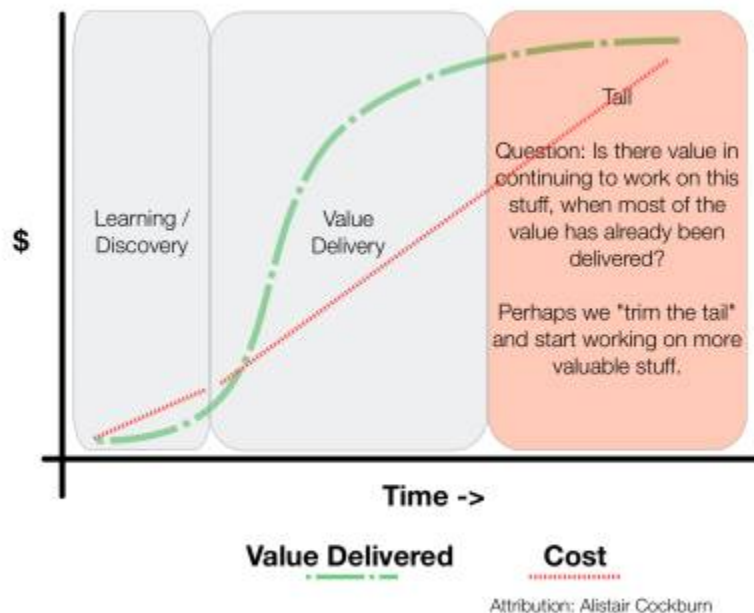

Sometimes seeing a picture really does help in understand. This page collects a number of pictures, graphs and charts that are scattered over the blog with links that help understand information about what they present.

The Economic Benefit of Doing One Thing at a Time

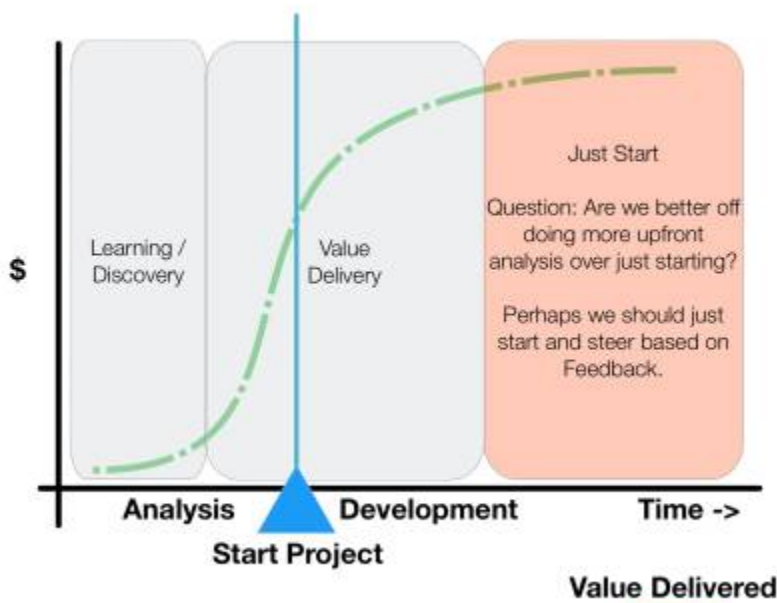

See [Why Should We Focus on Doing One Thing To Completion at a Time](#) for more information.

Deliver Early to Improve Economics

See [How Does the Agile Approach Allow Us to Deliver Early?](#) for more information.

Start Early to Improve Economics

See [Why Should We Start Without Doing a Complete Analysis?](#) for more information.

Why (Near-)100% Utilization Actually Reduces Productivity

See [What Is Wrong With 100% Utilization Thinking?](#) for more information. The result is known as the Kingman's Formula.

Why Large Batches of Work Actually Reduces Productivity?

See [What Is The Effect of Batch Size On How Long It Takes to Get Something Done?](#) for more information.

Why High Utilization Rates Make It Impossible to Create Good Estimates?

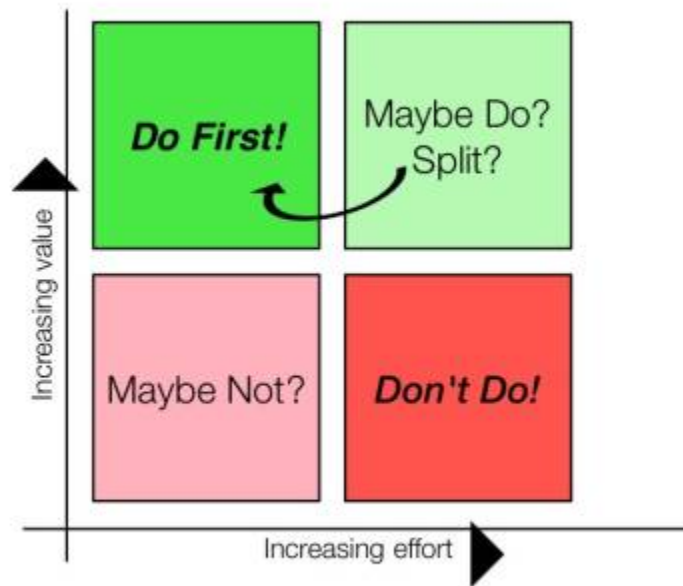

See [Why Does High a Utilization Rate Make It Impossible to Create Good Estimates](#) for more information.

Why We Should Work Hard To Remove Dependencies

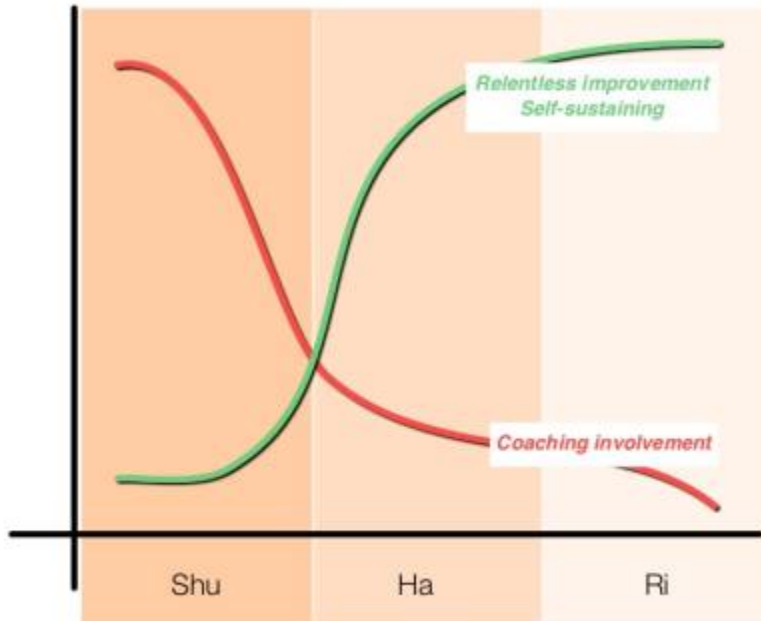

See [Why Should We Work Harder to Eliminate the Effect of Dependencies?](#) for more information.

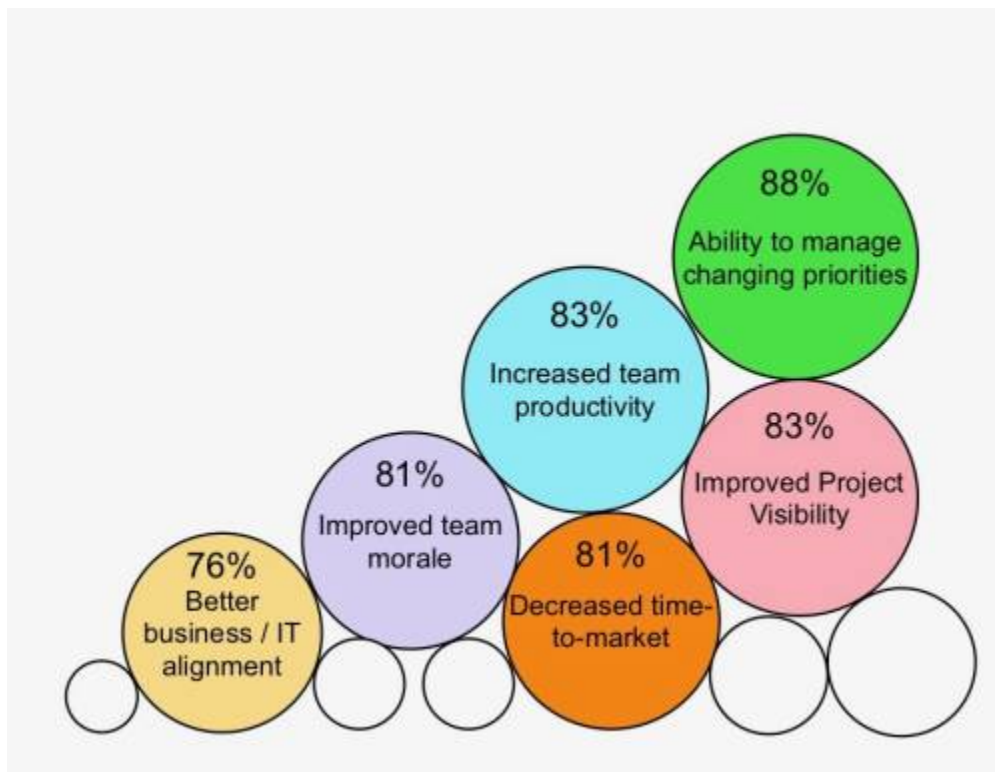

How Should We Prioritize Delivery of Value?

How Should We Engage with an Agile Coach?

What Are the Benefits of an Agile Transformation?

Note: Original source is VersionOne "State of Agile"

What Are The Challenges of an Agile Transformation?

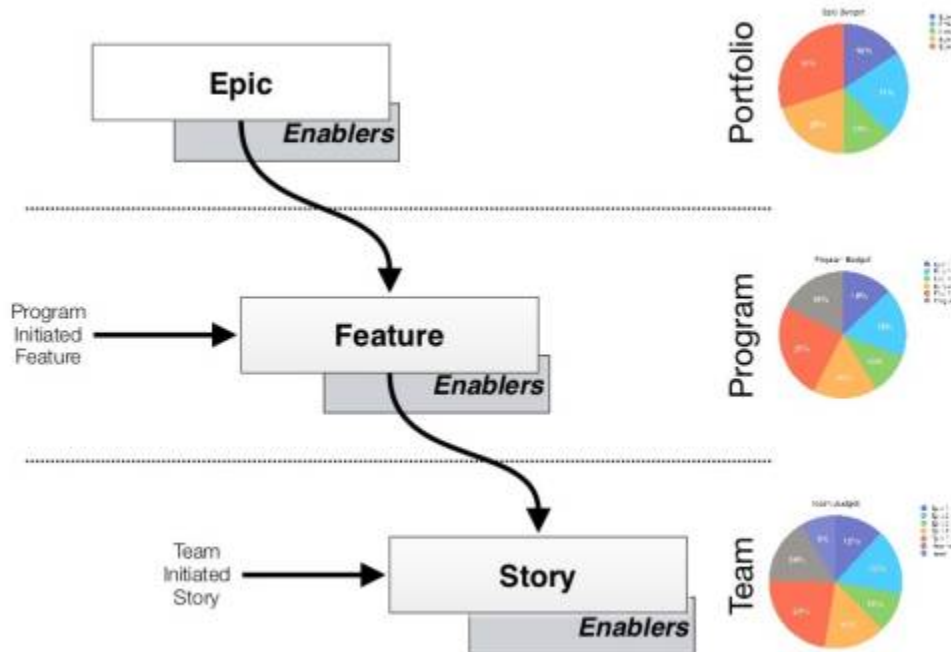

Note: Original source is VersionOne "State of Agile"

What Options do the Team Have When a Iteration Demo is Complete?

How Should We Break Down Requirements?

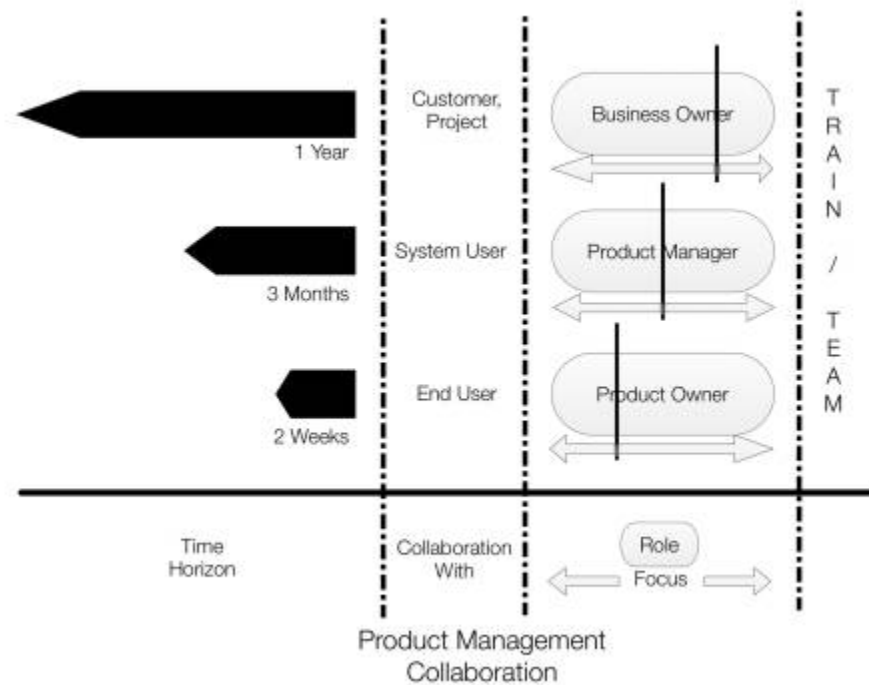

How Do We Move from Break-in to Planned Work?

See [How Do We Deal With Constant Interruptions?](#) for more information.

How Does Multi-tiered Product Management Work?

See [How Does Multi-tiered Product Management Work](#) for more information?

[Consultant, Tools, Team, Presentation Ideas](#)
