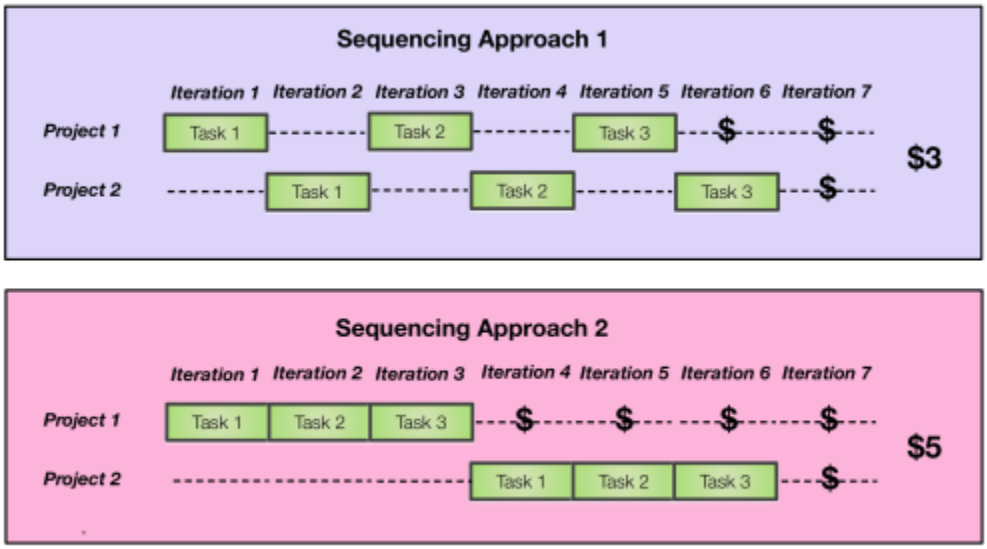
# Powerful Pictures

# Premise

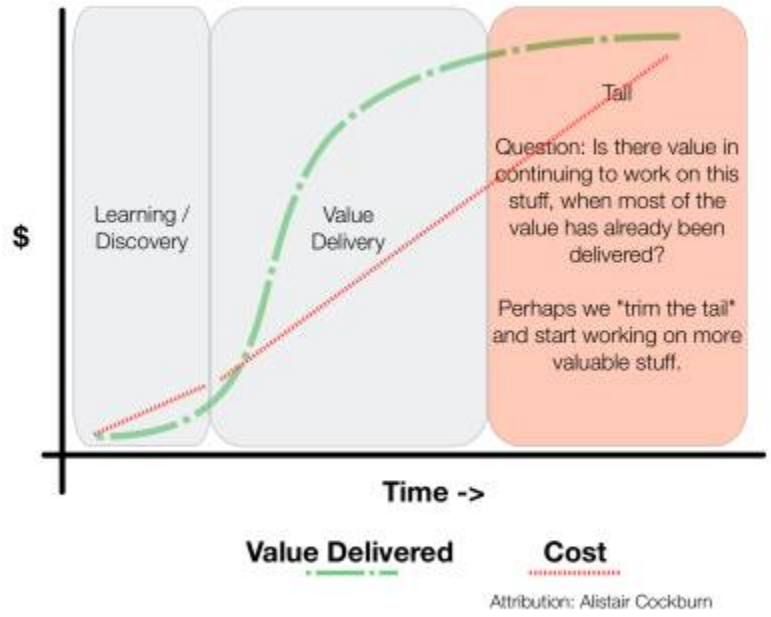
Sometimes seeing a picture really does help in understand. This page collects a number of pictures, graphs and charts that are scattered over the blog with links that help understand information about what they present.

# The Economic Benefit of Doing One Thing at a Time



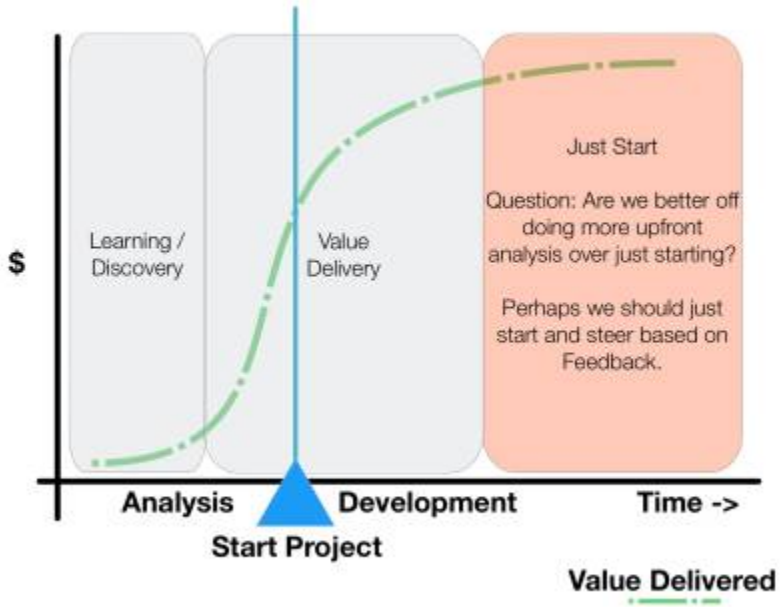
See Why Should We Focus on Doing One Thing To Completion at a Time for more information.

# Deliver Early to Improve Economics



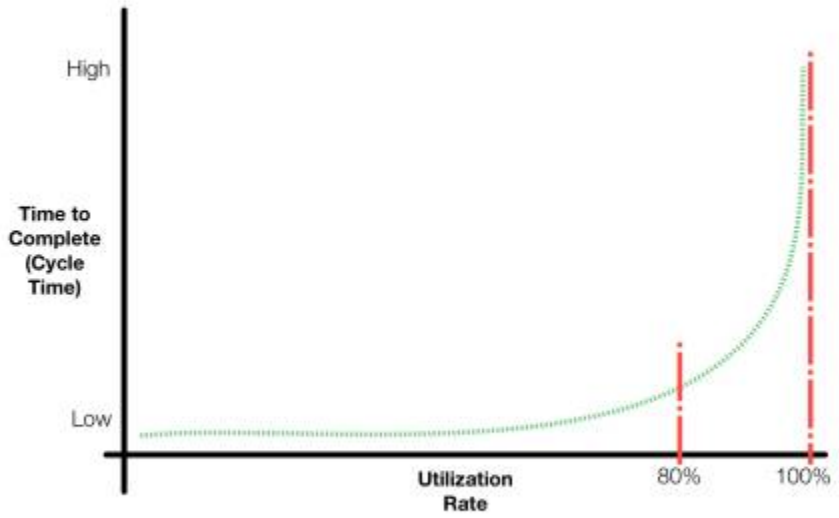
See How Does the Agile Approach Allow Us to Deliver Early? for more information.

# Start Early to Improve Economics



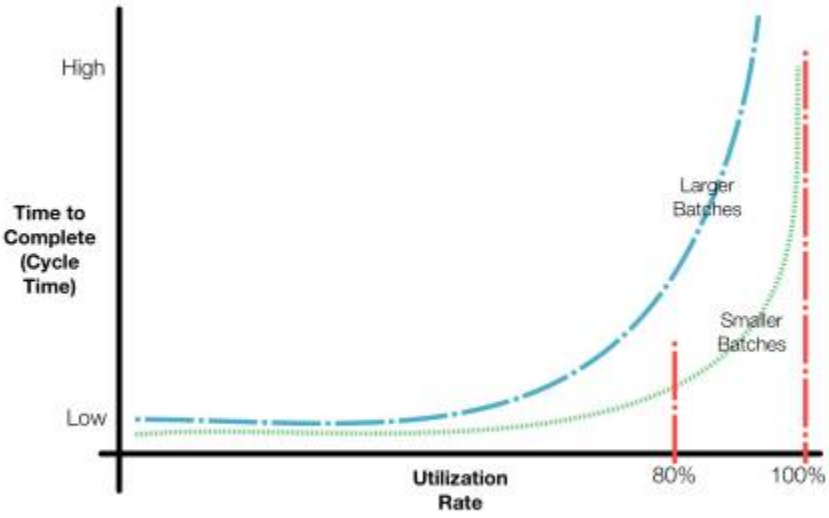
See Why Should We Start Without Doing a Complete Analysis? for more information.

# Why (Near-)100% Utilization Actually Reduces Productivity



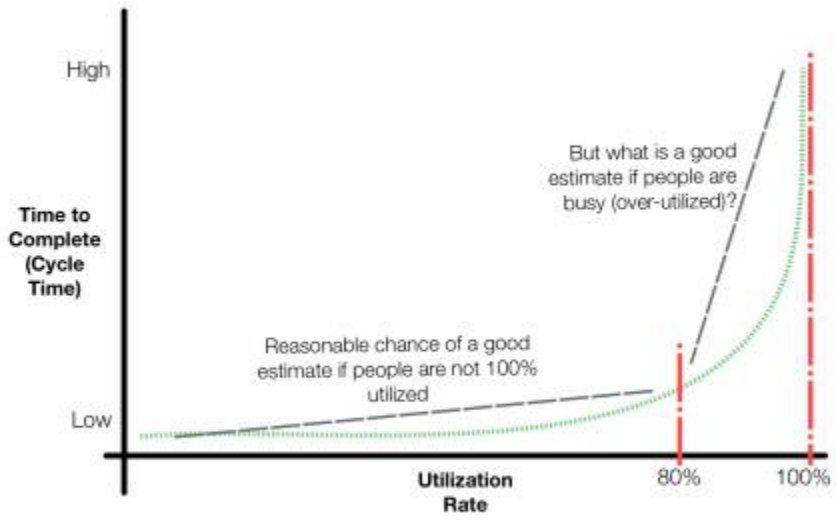
See What Is Wrong With 100% Utilization Thinking? for more information. The result is known as the Kingman's Formula.

# Why Large Batches of Work Actually Reduces Productivity?



See What Is The Effect of Batch Size On How Long It Takes to Get Something Done? for more information.

# Why High Utilization Rates Make It Impossible to Create Good Estimates?



See Why Does High a Utilization Rate Make It Impossible to Create Good Estimates for more information.

# Why We Should Work Hard To Remove Dependencies

See Why Should We Work Harder to Eliminate the Effect of Dependencies? for more information.

# How Should We Prioritize Delivery of Value?

# How Should We Engage with an Agile Coach?

# What Are the Benefits of an Agile Transformation?

Note: Original source is VersionOne “State of Agile”

# What Are The Challenges of an Agile Transformation?

Note: Original source is VersionOne “State of Agile”

# What Options do the Team Have When a Iteration Demo is Complete?

# How Should We Break Down Requirements?
