Welcome to My Personal Lean-Agile Knowledge Base!

This is not a blog, but rather a constantly evolving, incrementally growing library of information I've used to help transform organizations to increased effectiveness.

It is not a web site of services I offer. If you are interested in service offerings please visit Focussed Agile LLC

To understand why this wiki exists, please see Rationale, Or "Why do I have this set of pages?".

What does this mean to you? In general, when people publish information they try to focus the message - just do this - and skip the thinking process. For me the thinking is more important than the practice. In other words it is more important that I understand the “why” and that the “why” makes sense. These pages are therefore “thinking pieces” not marketing messages. But then this is more a personal knowledge repository than it is a marketing piece.

> If you are offended by pages that are not short, succinct and straight to the point, then you probably want to go somewhere else 🤣

The knowledge is mainly organized in the form of Frequently Asked Questions. Sometimes multiple FAQ pages come together to make a complete Subject Specific Article.

If looking through a list of questions seems like overkill, simply use the search.

The sidebar contains links to other information that don't fit into the FAQ-style approach.

Read and enjoy!

What's New?

- How do we determine if an PI Objective is Committed or Uncommitted?
- How do we ensure Features are “ready” for a Big Room (PI) Planning event?
- If You Have to Say It’s Safe, It Probably Isn’t
- How do we break down Epics using an MVP approach?
- What are the steps we can take to restructure a Train?
- How can we put an estimate on complexity
- What insights do we get from tracking Investment Horizon
- We Need More People ... Or Do We?
- Why does a Lean-Agile approach focus on the completion of work (running, tested features)?
- Under what conditions is Full-Time Equivalent (FTE) resource planning effective?
- What is the Best Approach to Making Decisions in Our Context?

- How Do We Setup An Organizational Impediment Removal System? - SSA
- What is the Impact of a Reorg on an Agile Transformation?
