# Useful Markup Syntax in the Wiki

Just a store of some useful syntax that I seem to use a lot, but not enough to remember immediately.

- For `{{page>}}` include, to make a clean include, use: `&noindent&notags&noeditbutton&nouser&nomdate&nodate`
- For tagging use: `{{tag>FAQ ProductOwner}}`

## Setup Information

- To make pretty links to pages (i.e. without default `doku.php` in the link) instructions are at <https://www.dokuwiki.org/rewrite>
