Useful Tools 3

Useful Tools

Agile tools:

- Trello: Useful Kanban board for all kinds of purposes
- Slack: Useful discussion tool for Teams
- Zoom: Video conference tool
- Idea Boardz: Useful “card” oriented board to collaborate and brainstorm. Very useful for retrospectives, especially in remote situations.
- Instant Agenda: Useful tool “lean coffee” oriented tool to collaborate and brainstorm.
- The Nouns Project: Source for “free” icons
- Pexels: Source for “free” images

As I set up my business, I come across tools I find useful. Perhaps you are looking for things like this as well:

- Free Conference Call: Does exactly what it says. You set up an account on the Website and can then do conference calls for free. Pretty nice.
- Dokuwiki Wiki system: I like the idea of a place where I can store information that is beyond a file service (hint to Dropbox et al - offer this type of application to put structure around files 🙂). This is a personal place to capture “stuff”. This page you are looking at is part of my wiki and uses Dokuwiki.
- Wordpress blogging platform: Pretty much “the” blogging platform. Started using this but stopped in the end.

Consultant, Tools
