Useful Tools 3

Useful Tools

Agile tools:

- [Trello](#): Useful Kanban board for all kinds of purposes
- [Slack](#): Useful discussion tool for Teams
- [Zoom](#): Video conference tool
- [Idea Boardz](#): Useful “card” oriented board to collaborate and brainstorm. Very useful for retrospectives, especially in remote situations.
- [Instant Agenda](#): Useful tool “lean coffee” oriented tool to collaborate and brainstorm.
- [The Nouns Project](#): Source for “free” icons
- [Pexels](#): Source for “free” images

As I set up my business, I come across tools I find useful. Perhaps you are looking for things like this as well:

- [Free Conference Call](#): Does exactly what it says. You set up an account on the Website and can then do conference calls for free. Pretty nice.
- [Dokuwiki Wiki system](#): I like the idea of a place where I can store information that is beyond a file service (hint to Dropbox et al - offer this type of application to put structure around files 😊). This is a personal place to capture “stuff”. This page you are looking at is part of my wiki and uses Dokuwiki.
- [Wordpress blogging platform](#): Pretty much “the” blogging platform. Started using this but stopped in the end.
