2025/04/29 11:31 3/3 Video List

Video List

On-going continuous learning . Once you start on Agile there is no end of learning! See Reading List for books.

Hopper

Completed

- 2017-01-03: "The Principles of Clean Architecture" by Uncle Bob Martin
- 2016-03-01: "Continuous Delivery in a large Enterprise Transforming Enterprise IT" by Henk Kolk
- 2016-02-19: Second Generation Lean Product Development Flow by Don Reinertsen. As usual a
 very "dense" pitch with a lot of information. If you want to understand impacts of things like
 queuing theory, lean, and why variability should be preserved for new product development (hint:
 Black Scholes option pricing model) then this is the video for you. See My notes for more
 information.
- 2015-11-17: 10 Reasons Estimation and Planning Fails and What to Do About It by Troy Magennis. Great pitch. Love the basics here, such as "If you are in the non-linear region of utilization for your project (i.e. greater than 80% utilization) then estimation will always fail", "Sometimes you need just enough information to decide what not to do, and perhaps toss a coin for remaining options (if they really are close enough)", "why this project won't finish on time is because of last project and no amount of estimating is going to help" and the importance of understanding dependencies. Idea that a lot of bad things happen which increase utilization into the "non-linear" zone and so make estimating useless and forecasting difficult.
- 2015-11-12: Introduction to Micro-services by Martin Fowler. Covers definition (or rather characteristics), when they should be used, and relationship to more general SOA discussion.
- 2015-11-12: Agile is Dead by Dave Thomas. Agile as originally intended is an adjective, not a noun.
